Embroidered Appliqué Design from MM Embroidery Designs

<http://www.oregonpatchworks.com/collections.php?id=MED>

In the hoop appliqué is an easy to do technique. Follow the steps below to complete the design.

1. White
Colour 1 is the placement line. Place a 6" x 8" rectangle of white cotton knit over the placement line, making sure the outline is completely covered.
2. White
Colour 2 secures the appliqué fabric and adds the t shirt details. When the stitching is complete, remove the hoop from the machine and trim close to the outline stitches, removing the excess fabric. Place the hoop on the machine when trimming is complete.
3. Lt Grey
Colour 3 is the satin stitch outline and lettering.
